Grass Getter®

Postemergence Grass Herbicide

- Intended for residential use on and around Flowers, Evergreens, Ornamental Groundcovers, Bedding Plants, Shrubs, Trees, Fruits*, Vegetables* (*See Table 2. Fruits and Vegetables for specific crops).
- Systematic selective herbicide kills weedy grasses without injuring desirable plants.
- Controls: Bermudagrass, crabgrass, foxtail, quackgrass and many other weedy grasses.

Active Ingredient:
Sethoxydim: 2-[1-(ethoxymino)butyl]-5-[2-(ethylthio)propyl]-3-hydroxy-2-cyclohexen-1-one**
Other Ingredients: ........................................ 18.0%
Other Ingredients: ........................................ 82.0%
Total: ......................................................... 100.3%
**Equivalent to 1.5 pounds of sethoxydim per gallon formulated as an emulsifiable concentrate.
Contains petroleum distillate.

Grass Getter is a registered trademark of Lawn and Garden Products, Inc.

EPA Reg. No. 7969-58-54705
EPA Est. No. 48498-CA-1

ATTENTION: This product contains a chemical(s) known to the State of California to cause cancer and birth defects or other reproductive harm.

NET CONTENTS: ½ Pint, 1 Pint or 1 Gallon
Manufactured for:
Lawn and Garden Products, Inc.
P.O. Box 35000 • Fresno, CA 93745 • (559) 499-2100

KEEP OUT OF REACH OF CHILDREN WARNING/AVISO
Si usted no entienda la etiqueta, busque a alguien para que le explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

FIRST AID
If In Eyes:
• Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes.
• Remove contact lenses, if present, after the first 5 minutes; then continue rinsing eyes.
• Call a poison control center or doctor for treatment advice.

If On Skin Or Clothing:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15 to 20 minutes.
• Call a poison control center or doctor for treatment advice.

If Swallowed:
• Call a poison control center or doctor immediately for treatment advice.
• DO NOT give any liquid to the person.
• DO NOT induce vomiting unless told to do so by a poison control center or doctor.
• DO NOT give anything by mouth to an unconscious person.

If Inhaled:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance; then give artificial respiration, preferably by mouth to mouth, if possible.
• Give a poison control center or doctor for further treatment advice.

HOT LINE NUMBER
Have the product container or label with you when calling a poison control center or doctor for treatment. You may also contact the National Pesticide Information Center at 1-800-858-7378 for emergency medical treatment information.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals
Warning: Causes substantial but temporary eye injury. Causes skin irritation. Harmful if absorbed through skin or swallowed. DO NOT get in eyes, on skin, or on clothing. Wear long-sleeved shirt, long pants, chemical-resistant gloves made of any waterproof material, protective eyewear, shoes, and socks. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Re-entry Statement: DO NOT allow people or pets to come into contact with treated areas until spray has dried.

ENVIRONMENTAL HAZARDS
This product is toxic to aquatic organisms. To protect the environment, DO NOT allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

ENDANGERED SPECIES CONCERNS
The use of any pesticide in a manner that may kill or otherwise harm an endangered or threatened species or adversely modify their habitat is a violation of Federal law.

PHYSICAL AND CHEMICAL HAZARDS

COMBUSTIBLE. DO NOT use or store near heat or open flame.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with this labeling.

READ ENTIRE LABEL BEFORE USING THIS PRODUCT.

GRASS GETTER is a selective systemic grass killer to eliminate existing weedy grasses growing in and around plant beds, landscapes, and individual shrubs and trees (See Tolerant Plants). GRASS GETTER can be used through a hose-end sprayer according to the directions of the sprayers used or through a tank-type sprayer.

GRASS GETTER can also be used around listed fruit and vegetable areas (see Table 2) wherever listed weedy grasses occur. Use only tank type sprayers.

WEEDY GRASSES CONTROLLED: GRASS GETTER kills most annual and hard-to-kill perennial grasses up to 1-foot high, including the following examples, in one or two applications. Younger, actively growing seedling weeds are more easily killed than older, mature, well-established grassy weeds that may require a repeat application for control. Adding oil concentrate may help control grassy weeds.

Barnyardgrass
Bermudagrass
Broadleaf Signalgrass
Crabgrass, (Large, Smooth)
Texas Panicum
Fall Panicum
Foxtails (Giant, Green, Yellow)
Tall Fescue, Seedling
Goosegrass
Witchesgrass
Johnsongrass (Seedling, Rhodes)
Wooly cupgrass
Lovergrass

Note: This product does not control sedge (including nutsedge or nutgrass), annual bluegrass, or broadleaf weeds. Red fescue, chewings fescue, hard fescue, and dichondra turfs are also tolerant to GRASS GETTER.

APPLICATION TIMING: Apply when grassy weeds are actively growing, not exceeding the minimum of days from application to harvest when used on vegetables and fruits. Warm sunny weather will accelerate systemic movement from leaves and stems down to the roots to give complete kill. DO NOT mow or cut off tops of weeds before spraying. DO NOT apply if rainfall is expected within one hour following application. Growth of treated grass stops soon after application. Grass turns yellow and dies within one to three weeks depending on the grass species, stage of growth and weather conditions. Cool weather, drought and heat stress slow activity.

</table>

One gallon of spray will treat 1,800 square feet.

*To prevent leaf burn of desirable plants, DO NOT use oil concentrate when comfort index (temperature °F + humidity) exceeds 150.
**HOSE-END SPRAYER APPLICATION**

Water Dilution/Premixing Not Needed

Determine the area to treat in square feet. Pour 1 fluid ounce GRASS GETTER and 1 fluid ounce oil concentrate in the hose-end sprayer bottle for each 1800 square feet treated. Apply 1 fluid ounce per gallon. After application, wash the sprayer with a dilute soap solution and rinse according to the sprayer instructions.

Water Dilution/Premixing Needed

Some hose-end applicators recommend premixing liquid products with water before pouring into the sprayer bottle. Read the hose-end sprayer instructions for treatments at 1 fluid ounce per 1000 square feet. Clean the sprayer after use according to the sprayer instructions.

**TANK SPRAYER APPLICATION**

Mix 1 fluid ounce GRASS GETTER plus 1 fluid ounce oil concentrate per 1 gallon water; spray to just wet the unwanted weedy grasses. One gallon of spray will treat 1800 square feet. Wash sprayer by flushing soapy water through the sprayer; then flushing clean water through the sprayer.

**IMPORTANT:** For spot treating grassy weeds near lawns and around sensitive plants, a tank-type sprayer is recommended. Spray carefully to avoid spray or drift contact with desirable plants. If drift occurs, wash foliage immediately with water.

**FLOWERS, BEDDING PLANTS, EVERGREENS, SHRUBS, TREES AND ORNAMENTAL GROUNDCOVERS:** GRASS GETTER may be applied over the top of desirable plants infested by weedy grasses, or as a directed spray to weedy grasses at labeled rates. **DO NOT** exceed dosage rate per gallon of spray. Most ornamental species tested have been found tolerant to GRASS GETTER (see Tolerant Plants list). However, use with caution around the following plants as they may be damaged if spray contacts foliage: Azaleas (var. snow), Japanese Privet, Potentilla, Snow in Summer, Red Oak, White Oak, and ornamental grass.

**GRASS GETTER** may also be used on the following non-bearing food plants. **DO NOT** apply within 1 year of harvest.

**FRUITS AND VEGETABLES (Use Only with Tank Type Sprayers):**

Use GRASS GETTER on the fruits and vegetables listed in Table 2. Fruits and Vegetables. **DO NOT** apply on or around any fruits and vegetables not listed on this label, especially sweet corn. Apply on and around tolerant fruits and vegetables with a tank-type sprayer only. A second application may be made to all listed fruits and vegetables except peanut, root vegetables, and strawberry.

The quantities presented in Table 1. **GRASS GETTER (CONCENTRATE) AND OIL CONCENTRATE DILUTION** do not exceed the registered rates for the fruits and vegetables listed. **DO NOT** exceed the quantities presented.

**STORAGE AND DISPOSAL**

**PESTICIDE STORAGE:** DO NOT allow this product to freeze. DO NOT store below 32ºF or above 100ºF. Store unused prod32F in original container only, out of reach of children and animals. NEVER TRANSFER THIS PRODUCT TO ANOTHER CONTAINER FOR STORAGE.

**PESTICIDE DISPOSAL AND CONTAINER HANDLING:** Nonrefillable container. DO NOT reuse or refill this container. If empty: Place in trash or offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**NOTE:** Buyer assumes all liability, including personal injury and property damage which may result from the use of this product in a manner inconsistent with labeling directions. If these terms are not acceptable, return at once unopened.

---

**CONDITIONS OF SALE AND WARRANTY**

The Directions For Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of Lawn and Garden Products, Inc. or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

Lawn and Garden Products, Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions For Use, subject to the inherent risks referred to above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, LAWN AND GARDEN PRODUCTS, INC. MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER’S EXCLUSIVE REMEDY AND LAWN AND GARDEN PRODUCTS’ EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, LAWN AND GARDEN PRODUCTS, INC. AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

Lawn and Garden Products, Inc. and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of Lawn and Garden Products, Inc.
