

# SAFETY DATA SHEET

**Product name: Monterey Brush & Vine Control**

**Issue Date: 7/05/2018**

---

LAWN AND GARDEN PRODUCTS, INC. encourages and expects you to read and understand the entire SDS, as there is important information throughout the document. We expect you to follow the precautions identified in this document unless your use conditions would necessitate other appropriate methods or actions.

---

## 1. IDENTIFICATION

---

**Product name: Monterey Brush & Vine Control**

**EPA Reg. No.: 62719-226-54705**

**Recommended use of the chemical and restrictions on use**

**Identified uses:** End use herbicide product

**COMPANY IDENTIFICATION**

Lawn and Garden Products, Inc.

PO Box 35000

Fresno, California 93745

United States

**Customer Information Number:**

559-499-2100

[info@montereylawngarden.com](mailto:info@montereylawngarden.com)

**EMERGENCY TELEPHONE NUMBER**

**24-Hour Emergency Contact: CHEMTREC®: 800-424-9300**

---

## 2. HAZARDS IDENTIFICATION

---

**Hazard classification**

This material is hazardous under the criteria of the Federal OSHA Hazard Communication Standard 29CFR 1910.1200.

Specific Target Organ Toxicity  
Repeated exposure

Category 2

**Label elements**

**Hazard pictograms**

Signal word: WARNING!

**Hazards**

May cause damage to organs (Kidney) through prolonged or repeated exposure.

**Precautionary statements****Prevention**

Do not breathe dust/fume/gas/mist/vapors/spray.

**Response**

Get medical advice/attention if you feel unwell.

**Disposal**

Dispose of contents/ container to an approved waste disposal plant.

**Other hazards**

No data available

---

**3. COMPOSITION/INFORMATION ON INGREDIENTS**

---

This product is a mixture.

<b>Component</b>	<b>CASRN</b>	<b>Concentration</b>
Triclopyr Triethylamine salt	57213-69-1	8.8%
Balance	Not available	>90%

---

**4. FIRST AID MEASURES**

---

**Description of first aid measures**

**General advice:** First Aid responders should pay attention to self-protection and use the recommended protective clothing (chemical resistant gloves, splash protection). If potential for exposure exists refer to Section 8 for specific personal protective equipment.

**Inhalation:** Move person to fresh air. If person is not breathing, call an emergency responder or an ambulance, and then give artificial respiration; if by mouth to mouth use rescuer protection (pocket mask, etc). If breathing is difficult, oxygen should be administered by qualified personnel. Call a physician or transport to a medical facility.

**Skin contact:** Take off contaminated clothing. Wash skin with soap and plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**Eye contact:** Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice. Suitable emergency eye wash facility should be available in work area.

**Ingestion:** Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. Call a poison control center or doctor for treatment advice.

**Most important symptoms and effects, both acute and delayed:** Aside from the information found under Description of first aid measures (above) and Indication of immediate medical attention and special treatment needed (below), any additional important symptoms and effects are described in Section 11: Toxicology Information.

**Indication of any immediate medical attention and special treatment needed**

**Notes to physician:** No specific antidote. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient. Have the Safety Data Sheet, and if available, the product container or label with you when calling a poison control center or doctor, or going for treatment.

---

## **5. FIREFIGHTING MEASURES**

---

**Suitable extinguishing media:** Water. Dry chemical fire extinguishers. Carbon dioxide fire extinguishers.

**Unsuitable extinguishing media:** Do not use straight water streams. May spread fire.

**Special hazards arising from the substance or mixture**

**Hazardous combustion products:** During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating. Combustion products may include and are not limited to: Nitrogen oxides, Hydrogen chloride, Carbon monoxide, Carbon dioxide.

**Unusual Fire and Explosion Hazards:** This material will not burn until the water has evaporated. Residue can burn. If exposed to fire from another source and water is evaporated, exposure to high temperatures may cause toxic fumes.

**Advice for firefighters**

**Fire Fighting Procedures:** Keep people away. Isolate fire and deny unnecessary entry. Foam fire extinguishing system is preferred because uncontrolled water can spread possible contamination. Soak thoroughly with water to cool and prevent re-ignition. Cool surroundings with water to localize fire zone. Contain fire water run-off if possible. Fire water run-off, if not contained, may cause environmental damage. Review the "Accidental Release Measures" and the "Ecological Information" sections of this SDS.

**Special protective equipment for firefighters:** Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire fighting clothing (includes fire fighting helmet, coat, trousers, boots, and gloves). Avoid contact with this material during fire fighting operations. If contact is likely, change to full chemical resistant fire fighting clothing with self-contained breathing apparatus. If this is not available, wear full chemical resistant clothing with self-contained breathing apparatus and fight fire from a remote location. For protective equipment in post-fire or non-fire clean-up situations, refer to the relevant sections.

---

## 6. ACCIDENTAL RELEASE MEASURES

---

**Personal precautions, protective equipment and emergency procedures:** Evacuate area. Keep unnecessary and unprotected personnel from entering the area. Refer to section 7, Handling, for additional precautionary measures. Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection.

**Environmental precautions:** Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. See Section 12, Ecological Information.

**Methods and materials for containment and cleaning up:** Contain spilled material if possible. Small spills: Absorb with materials such as: Clay. Dirt. Sand. Sweep up. Collect in suitable and properly labeled containers. Large spills: Contact Dow AgroSciences for clean-up assistance. See Section 13, Disposal Considerations, for additional information.

---

## 7. HANDLING AND STORAGE

---

**Precautions for safe handling:** Keep out of reach of children. Do not swallow. Avoid contact with eyes, skin, and clothing. Avoid breathing dust or mist. Wash thoroughly after handling. Use with adequate ventilation. See Section 8, EXPOSURE CONTROLS AND PERSONAL PROTECTION.

**Conditions for safe storage:** Store in a dry place. Store in original container. Keep container tightly closed when not in use. Do not store near food, foodstuffs, drugs or potable water supplies.

---

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

---

### Control parameters

Exposure limits are listed below, if they exist.

Component	Regulation	Type of listing	Value/Notation
Triclopyr Triethylamine salt	Dow IHG	TWA	2 mg/m <sup>3</sup>
	Dow IHG	TWA	SKIN, DSEN, BEI

RECOMMENDATIONS IN THIS SECTION ARE FOR MANUFACTURING, COMMERCIAL BLENDING AND PACKAGING WORKERS. APPLICATORS AND HANDLERS SHOULD SEE THE PRODUCT LABEL FOR PROPER PERSONAL PROTECTIVE EQUIPMENT AND CLOTHING.

### Exposure controls

**Engineering controls:** Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations. Local exhaust ventilation may be necessary for some operations.

**Individual protection measures**

**Eye/face protection:** Use safety glasses (with side shields). If there is a potential for exposure to particles which could cause eye discomfort, wear chemical goggles. Eye wash fountain should be located in the immediate work area.

**Skin protection:** Use protective clothing. Selection of specific items such as face shield, gloves, boots, apron, or full body suit will depend on operations. Safety shower should be located in immediate work area.

**Respiratory protection:** Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, wear respiratory protection when adverse effects, such as respiratory irritation or discomfort have been experienced, or where indicated by your risk assessment process. In dusty or misty atmospheres, use an approved particulate respirator. The following should be effective types of air purifying respirators: Organic vapor cartridge with a particulate pre-filter.

---

## 9. PHYSICAL AND CHEMICAL PROPERTIES

---

**Appearance**

<b>Physical state</b>	Liquid.
<b>Color</b>	Amber
<b>Odor</b>	Amine
<b>Odor Threshold</b>	no data available
<b>pH</b>	9.36
<b>Melting point/range</b>	no data available
<b>Freezing point</b>	no data available
<b>Boiling point (760 mmHg)</b>	no data available
<b>Flash point</b>	>200°F Closed cup
<b>Evaporation Rate</b>	no data available
<b>Flammability (solid, gas)</b>	no data available
<b>Lower explosion limit</b>	no data available
<b>Upper explosion limit</b>	no data available
<b>Vapor Pressure</b>	no data available
<b>Relative Vapor Density (air = 1)</b>	no data available
<b>Relative Density (water = 1)</b>	1.026 g/mL
<b>Water solubility</b>	no data available
<b>Auto-ignition temperature</b>	no data available
<b>Viscosity (Dynamic)</b>	1.63 @ 20°C
<b>Explosive properties</b>	no data available
<b>Oxidizing properties</b>	no data available
<b>Bulk density</b>	no data available

NOTE: The physical data presented above are typical values and should not be construed as a specification.

---

## 10. STABILITY AND REACTIVITY

---

**Reactivity:** No dangerous reaction known under conditions of normal use.

**Chemical stability:** Stable under recommended storage conditions. See Storage, Section 7.

**Possibility of hazardous reactions:** Polymerization will not occur.

**Conditions to avoid:** Elevated temperatures may cause product to decompose.

**Incompatible materials:** Avoid contact with oxidizers.

**Hazardous decomposition products:** Decomposition products depend upon temperature, air supply and the presence of other materials. Decomposition products can include and are not limited to: Hydrogen chloride. Nitrogen oxides.

---

## 11. TOXICOLOGICAL INFORMATION

---

*Toxicological information on this product or its components appear in this section when such data is available.*

### Acute toxicity

#### Acute oral toxicity

Low toxicity if swallowed. Small amounts swallowed incidentally as a result of normal handling operations are not likely to cause injury; however, swallowing larger amounts may cause injury. As a product the Oral LD50 has not been determined.

#### Acute dermal toxicity

Prolonged skin contact is unlikely to result in absorption of harmful amounts. As a product the 14 day Dermal LD50 for rats is >5000 mg/kg.

#### Acute inhalation toxicity

No adverse effects are anticipated from single exposure to mist. As a product the 4 hour Inhalation LC50 for rats is >5.2 mg/L.

### Skin corrosion/irritation

Prolonged or repeated contact may cause skin irritation with local redness.

### Serious eye damage/eye irritation

May cause slight irritation.

### Sensitization

Based on information for the components: Not expected to be a sensitizer.

For respiratory sensitization:

No relevant data found.

### Specific Target Organ Systemic Toxicity (Single Exposure)

Evaluation of available data suggests that this material is not an STOT-SE toxicant.

**Specific Target Organ Systemic Toxicity (Repeated Exposure)**

For the active ingredient: In animals, effects have been reported on the following organs: Kidney.

**Carcinogenicity**

For similar active ingredients: Triclopyr. Did not cause cancer in laboratory animals.

**Teratogenicity**

For the active ingredient: Has been toxic to the fetus in laboratory animals at doses toxic to the mother. Did not cause birth defects in laboratory animals.

**Reproductive toxicity**

For similar active ingredient: Triclopyr: In laboratory animal studies, effects on reproduction have been seen only at doses that produced significant toxicity to the parent animals.

**Mutagenicity**

For the active ingredient: In vitro genetic toxicity studies were negative. Animal genetic toxicity studies were negative.

**Aspiration Hazard**

Based on physical properties, not likely to be an aspiration hazard.

---

**12. ECOLOGICAL INFORMATION**

---

*Ecotoxicological information on this product or its components appear in this section when such data is available.*

**Toxicity****Triclopyr Triethylamine salt****Acute toxicity to fish**

Based on information for a similar material:

Material is highly toxic to aquatic organisms on an acute basis (LC50/EC50 between 0.1 and 1 mg/l in the most sensitive species tested).

LC50, *Oncorhynchus mykiss* (rainbow trout), 96 hour, 400 mg/l, OECD Test Guideline 203 or Equivalent.

LC50, *Lepomis macrochirus* (Bluegill sunfish), semi- static test, 96 hour, >100 mg/l

**Acute toxicity to aquatic invertebrates**

EC50, eastern oyster (*Crassostrea virginica*), static test, 48 hour, 56 – 87 mg/l, Method not specified.

LC50, *Daphnia magna* (water flea), static test, 48 hour, >1000 mg/l, OECD Test Guideline 202 or equivalent.

**Acute toxicity to algae/aquatic plants**

ErC50, *Pseudokirchneriella subcapitata* (green algae), 72 hour, growth rate inhibition, 107 mg/l, OECD Test Guideline 201 or equivalent

ErC50, blue-green alga (*Anabaena flos-aquae*), 72 hour, Growth rate inhibition, >100 mg/l

EC50, Lemna gibba, 7 d, Growth inhibition, >100 mg/l

Based on information for a similar material:  
ErC50, Myriophyllum spicatum, 14 d, 0.241 mg/l

Based on information for a similar material:  
NOEC, Myriophyllum spicatum, 14 d. 0.0191 mg/l

**Persistence and degradability**

**Triclopyr Triethylamine salt**

**Biodegradability:** For similar active ingredient: Triclopyr. Biodegradation under aerobic static laboratory conditions is high (BOD20 or BOD25/ThOD >40%).

For similar active ingredient(s). Triclopyr. Based on stringent OECD test guidelines, this material cannot be considered as a readily biodegradable; however, these results do not necessarily mean that the material is not biodegradable under environmental conditions.

**Bioaccumulation**

**Triclopyr Triethylamine salt**

**Bioaccumulation:** For similar active ingredient(s): Bioconcentration potential is low (BCF < 100 or Log Pow <3).

**Mobility in soil**

**Triclopyr Triethylamine salt**

For similar active ingredient(s):  
Potential for mobility in soil is very high (Koc between 0 and 50).

---

---

**13. DISPOSAL CONSIDERATIONS**

---

**Disposal methods:** If wastes and/or containers cannot be disposed of according to the product label directions, disposal of this material must be in accordance with your local or area regulatory authorities. This information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations. If the material as supplied becomes a waste, follow all applicable regional, national and local laws.

---

---

**14. TRANSPORT INFORMATION**

---

**DOT**

Not regulated for transport.

**Classification for SEA transport (IMO-IMDG):**

Not regulated.

**Classification for AIR transport (IATA/ICAO):**

**Not regulated.**

This information is not intended to convey all specific regulatory or operational requirements/information relating to this product. Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations. Additional transportation system information can be obtained through an authorized sales or customer service representative. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material.

**15. REGULATORY INFORMATION**

**OSHA Hazard Communication Standard**

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

**Superfund Amendments and Reauthorization Act of 1986 Title III (Emergency Planning and Community Right-to-Know Act of 1986) Sections 311 and 312**

<b>Immediate (Acute) Health Hazard</b>	Yes
<b>Delayed (Chronic) Health Hazard</b>	Yes
<b>Fire Hazard</b>	No
<b>Reactive Hazard</b>	No
<b>Sudden Release of Pressure Hazard</b>	No

**Superfund Amendments and Reauthorization Act of 1986 Title III (Emergency Planning and Community Right-to-Know Act of 1986) Section 313:**

This product contains the following substances subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.

<u>Component</u>	<u>Amount</u>
Triclopyr Triethylamine salt	8.8%

**Pennsylvania Worker and Community Right-To-Know Act:**

This product is not known to contain any substances subject to the disclosure requirements of Pennsylvania.

**California Proposition 65 (Safe Drinking Water and Toxic Enforcement Act of 1986)**

To the best of our knowledge this product contains no chemical(s) known to the State of California to cause cancer, birth defects, or other reproductive harm.

**United States TSCA Inventory (TSCA)**

This product contains chemical substance(s) exempt from U.S. EPA TSCA Inventory requirements. It is regulated as a pesticide subject to Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) requirements.

**Federal Insecticide, Fungicide and Rodenticide Act**

EPA Registration Number: 62719-226-54705

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

**CAUTION**

Causes moderate eye irritation  
Harmful if swallowed

---

**16. OTHER INFORMATION**

---

**Hazard Rating System****NFPA**

	Health	Fire	Reactivity
	2	1	0

**Legend**

Dow IHG	Dow Industrial Hygiene Guideline
SKIN, DSEN, BEI	Absorbed via skin, Skin Sensitizer, Biological Exposure Indice
TWA	Time weighted average

**SDS Status:** New - DAS 12-12-16

DAS Code: XRM-5308

**Information Source and References**

This SDS is prepared from information supplied by internal references within our company.

LAWN AND GARDEN PRODUCTS, INC. urges each customer or recipient of this SDS to study it carefully and consult appropriate expertise, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. The information herein is provided in good faith and believed to be accurate as of the effective date shown above. However, no warranty, express or implied, is given. Regulatory requirements are subject to change and may differ between various locations. It is the buyer's/user's responsibility to ensure that his activities comply with all federal, state, provincial or local laws. The information presented here pertains only to the product as shipped. Since conditions for use of the product are not under the control of the manufacturer, it is the buyer's/user's duty to determine the conditions necessary for the safe use of this product. Due to the proliferation of sources for information such as manufacturer-specific SDSs, we are not and cannot be responsible for SDSs obtained from any source other than ourselves. If you have obtained an SDS from another source or if you are not sure that the SDS you have is current, please contact us for the most current version.
