# BRUSH BUSTER

## WOODY PLANT HERBICIDE

- Stump and Basal Treatment
- Controls Blackberry, Poison Ivy & Poison Oak

**ACTIVE INGREDIENTS:**

Isooctyl (2-ethylhexyl) Ester  
of 2,4-Dichlorophenoxyacetic Acid \* ..... 16.05%  
Isooctyl (2-ethylhexyl) Ester  
of (+)-R-2-(2,4-Dichlorophenoxy)propionic Acid\*\*‡..... 8.05%

**INERT INGREDIENTS: \*\*\*** ..... 75.90%  
**TOTAL** ..... 100.00%

**Isomer Specific by AOAC Method**

\* 2,4-Dichlorophenoxyacetic Acid Equivalent, 10.6%, 0.78 lbs./gal.

\*\* (+)-R-2-(2,4-Dichlorophenoxy)propionic Acid Equivalent,  
5.4%, 0.40 lbs./gal.

\*\*\* This product contains Petroleum Distillate

‡ Contains the single Isomer form of Dichlorprop-p

EPA Reg. No. 228-186-54705

EPA Est. No. 48498-CA-1

<b>IF ON SKIN OR CLOTHING:</b>	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.
<b>NOTE TO PHYSICIAN:</b>	Contains petroleum distillate – vomiting may cause aspiration pneumonia.

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or clothing. Avoid breathing vapors or spray mist. When using this product, wear long-sleeved shirt, long pants, socks, shoes and chemical resistant gloves. After using this product, rinse gloves before removing, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water before eating or smoking. Remove saturated clothing as soon as possible and shower.

The maximum number of broadcast applications to turf per treatment site is 2 per year. Do not allow people (other than applicator) or pets on treatment area during application. Do not enter treatment areas until spray has dried.

### ENVIRONMENTAL HAZARDS

This product is toxic to aquatic invertebrates. Drift or run-off may adversely affect aquatic invertebrates and non-target plants. Do not apply directly to water. When cleaning equipment, do not pour washwaters on the ground, spray or drain over a large area away from wells and other water sources. Do not contaminate water when disposing of equipment washwaters. Do not apply this product through any type of irrigation system. Do not contaminate irrigation ditches or water used for domestic purposes. If spills occur, collect the material and dispose of by following disposal instructions on this label. Use care to avoid spray contact or drift to 2,4-D or 2,4-DP susceptible plants such as okra, cotton, tomatoes, flowers, grapes, fruit trees, vegetables and ornamentals. Do not permit spray mist containing this product to drift onto them since even very small quantities of the spray, which may not be visible, can cause severe injury during both growing and dormant periods. Do not spray when the wind is blowing towards susceptible crops or ornamental plants. Use coarse sprays to minimize drift. Most cases of groundwater contamination involving phenoxy herbicides such as 2,4-D and 2,4-DP have been associated with mixing/loading and disposal sites. Caution should be exercised when handling these pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing and transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ ENTIRE LABEL BEFORE USING THIS PRODUCT. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.

### BRUSH CONTROL:

BRUSH BUSTER is specifically designed to control woody plants in all residential areas. This product also controls many noxious perennial weeds on uncropped land. The following is a partial list of the weeds controlled: Alder, Ash, Aspen, Birch, Blackberry, Black cherry, Blackjack oak, Black locust, Box elder, Brambles, Buckbrush, Ceanothus, Chamise, Coffeeberry, Currant, Elderberry, Fir, Gooseberry, Greenbrier, Gum, Hemlock, Honeysuckle, Locust, Manzanita, Maple, Multifloral rose, Oaks, Osage orange, Palmetto, Pine, Poison ivy, Poison oak, Poplar, Red elder, Red elm, Salmonberry, Sand sagebrush, Serviceberry, Shinnery oak, Snowberry, Spruce, Sumac, Sycamore, Tulip poplar, Wild cherry, Wild grape, Wild rose, Winged elm, Yerba santa, and many other species.

<b>KEEP OUT OF REACH OF CHILDREN CAUTION</b>	
<b>FIRST AID STATEMENT</b>	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
<b>IF IN EYES:</b>	Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
<b>IF SWALLOWED:</b>	Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

NOTE: This is a specimen label for electronic distribution. Always refer to product label on container for specific directions for use.

**TO PREPARE SPRAY:**

Add one-half the required amount of water to the spray tank, then add this product with agitation and finally the balance of the water with continued agitation. This material forms an emulsion in water, not a solution. This tends to separate on standing. Provide agitation to prevent such separation and ensure a uniform mixture.

**SPOT TREATMENT:**

For spot spraying with backpack sprayer, mix 2 cups (16 oz.) BRUSH BUSTER with 5 gallons of water. Wet brush stems and foliage thoroughly.

**MODIFIED BASAL TREATMENT:**

Drench the base of plants, then wet the lower 4/5 of remaining stems and leaves thoroughly to runoff. Apply treatment when brush is in full foliage. This method can be applied where susceptible species have been controlled by prior sprays and more resistant species, such as maple and oak remain. Soaking the base of the plant and wetting all stems to runoff is absolutely necessary for complete control.

**CONCENTRATE STUMP TREATMENT:**

For small (up to 3 inch diameter) stems, cut them as close to the ground as possible and apply undiluted BRUSH BUSTER directly from the can to the surface of the freshly cut stump.

**STORAGE AND DISPOSAL**

**STORAGE:** To be stored in original container and placed in an area inaccessible to children.

**DISPOSAL:** **If empty** - Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled** - If product cannot be used as directed, call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor (including toilet) or outdoor (including sewer) drain.

**WARRANTY**

Seller warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use and Buyer assumes the risk of any use contrary to such directions.
