

Environmentally
Safe!

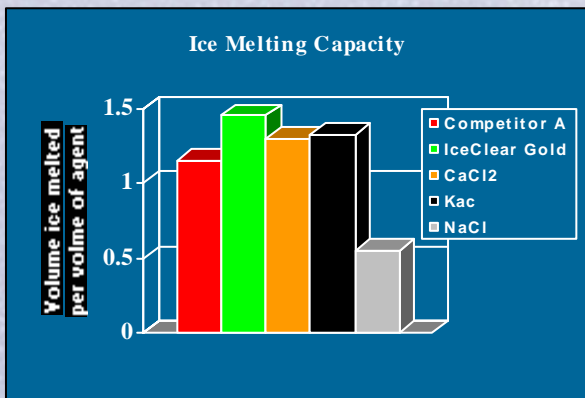

What is IceClear®?

IceClear® is one of the safest, most cost-effective and environmentally friendly deicing/anti-icing agents on the market. While IceClear® has excellent ice melting capacity, IceClear® is most effectively used as an anti-icing agent to actually prevent ice formation and accumulation in the first place. In addition to providing obvious safety benefits, IceClear® actually stops ice from bonding to walkway and driveway surfaces, taking the work out of winter snow and ice removal. IceClear® is the ideal material for safe and effective winter maintenance operations in applications where environmental impact and corrosion protection are a concern.

How good is IceClear®?

IceClear® is a high performance deicing agent:

- Freezing point is below -50°F
- Excellent ice melting capacity
- Less corrosive than distilled water.

How safe is IceClear® on the environment?

IceClear® is 100% organic, biodegrades readily, and contains no toxic materials or corrosive salts. It contains no VOCs, HAPs, heavy metals, or SARA Title III reportable materials, and is low in phosphorus and nitrogen.

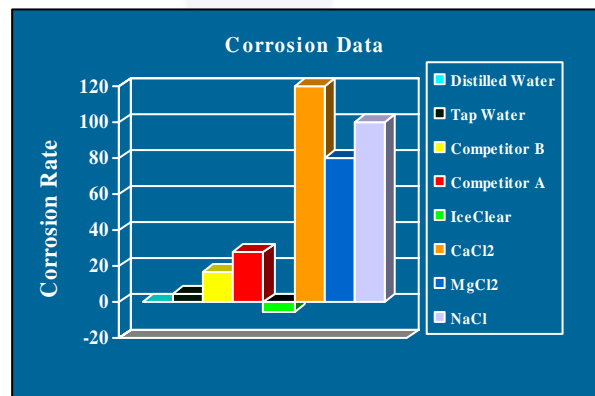

Safe for
Mother Earth!

How do I use IceClear®?

IceClear® is a fast acting liquid that can be applied by conventional spray equipment. For anti-icing, apply IceClear® as a pre-treatment at the rate of 0.5 – 1.0 gallons per 1000 square feet prior to precipitation and IceClear® will prevent ice formation and bonding to concrete.

How safe is IceClear® to use?

IceClear® is a safe, economic product that will help you protect your equipment, infrastructure and environment from winter snow and ice. IceClear® is a special blend of materials derived from natural resources. It will not harm metals, concrete or paving and it will not damage lawns, shrubs, or vegetation. Unlike other deicers, IceClear® has absolutely no corrosive chlorides, and it will not track or stain your carpets. Furthermore, IceClear® is a stable product that will not settle, ferment or develop any unpleasant odors.

Available Quantities

IceClear® is available in 1 gallon and 2.5 gallon sizes.
