### KEEP OUT OF REACH OF CHILDREN CAUTION

#### FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

<b>If On Skin Or Clothing:</b>	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
--------------------------------	---

#### PRECAUTIONARY STATEMENTS

##### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Harmful if absorbed through the skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling.

##### ENVIRONMENTAL HAZARDS

For terrestrial uses, do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not clean equipment or dispose of equipment wash waters in a manner that will contaminate water resources or arable land.

#### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

#### USE RESTRICTIONS:

This product may be used to discourage deer (*Odocoileus spp.*) from feeding on shrubs, ornamental plants, conifers, and nonbearing deciduous trees. Use this product only at ambient temperatures between 40°F and 90°F. Where deer pressure is high, consider other abatement options including fencing. Do not use on food or feed crops. Do not apply aerially. Do not apply product through any type of irrigation system or hose proportioner applicator. Do not apply directly to or where product might drift onto stone, concrete or siding as staining might occur. NO DEER ZONE™ has been tested on many species of ornamental plants and is believed not to be generally phytotoxic. Nevertheless, it is advisable to test the product on types of plants that might be especially sensitive by treating and observing small portions of the plant before treating the entire plant.

#### APPLICATION DIRECTIONS:

NO DEER ZONE™ is ready-to-use and should not be diluted. Shake container well before using this product. Apply NO DEER ZONE™ directly using the squeeze trigger applicator. If the container lacks a squeeze trigger, transfer product to any pump-type sprayer equipped with a cone or flat fan nozzle. Adjust nozzle to obtain even coverage. Apply only to dry plants. Hold spray tip 1 to 2 feet from plants to be treated and spray leaves, needles, buds, branches and trunks subject to browsing by deer. Thoroughly wet treated surfaces but do not apply to the point of significant spray runoff.

For small shrubs such as global arborvitae 20-24" high, approximately 4-5 plants can be treated with the contents of a quart container. Less product per plant will be needed for treating smaller, or less densely foliated plants; larger, heavily foliated plants will require greater amounts of product. Repeat treatments if deer damage resumes.

For best results apply to bare branches in fall, after the first frost, and to unprotected foliage in spring.

CLEAN APPLICATION EQUIPMENT IMMEDIATELY BEFORE SPRAY DRIES.

#### STORAGE & DISPOSAL

**STORAGE:** Store only in original container, in a dry place inaccessible to children and pets. KEEP FROM FREEZING.

**PRODUCT DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** **If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency of 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
