### CAUTION

Harmful if swallowed. Avoid contact with eyes.

#### FIRST AID

**If swallowed**, call a poison control center or doctor immediately. Drink large amounts of water. Induce vomiting. **If in eyes**, flush with water for at least 15 minutes. If irritation persists, get medical attention.

#### GENERAL INFORMATION:

PERC-O-LATE PLUS HOSE 'EM is specially designed for use on western soils. It increases water penetration by increasing the rate at which water soaks into the soil, meaning greater water efficiency and less waste of water. PERC-O-LATE PLUS HOSE 'EM includes nitrogen and important trace elements (iron, zinc, manganese) which are in chelated form to facilitate availability to the plant. This product is not meant to replace a complete fertilization program.

**DIRECTIONS FOR USE:** Shake well before using. Use on Lawns, Flower Beds, Vegetable Gardens, Citrus, Fruit & Shade Trees.

#### How To Use This Sprayer: (Shake well before using.)

1. Before you start, the blue flow switch should be in the "OFF" position, and the red flow switch should be in the up, "CLOSED" position.
2. Shake container well and attach it to your garden hose, while holding sprayer at waist level and pointing in a direction away from face and body.
3. Turn on the water from the faucet.
4. When you are ready to spray, turn the blue flow switch to "ON" position; turn red flow switch to the forward "OPEN" position; and begin spraying.
5. When you are finished spraying or if you have to stop spraying at any time, turn the blue flow switch back to the "OFF" position and the red flow switch to the "CLOSED" position.
6. Turn off the water at the faucet.
7. Remove the container from the garden hose; then rinse thoroughly and store according to storage instructions.

**NOTE:** It is important to follow the application of PERC-O-LATE PLUS HOSE 'EM with a thorough watering.

#### STORAGE AND DISPOSAL:

Do not reuse container. Wrap container in newspaper and put in trash for collection.
