CAUTION

KEEP OUT OF REACH OF CHILDREN AND PETS
PROPERLY CLOSE THE LID TIGHTLY AFTER EACH USE.

DIRECTIONS FOR USE

Always wear approved eye protection and protective gloves.

Suggested usage rate for lakes/ponds: Apply 3 – 4 water soluble bags per acre in water up to 6 feet deep. Simply toss the bags from shore or a boat at different locations. Apply upwind for best results. After waiting 12 – 24 hours additional bags may be added for a more dramatic appearance. Longevity of color depends upon rainfall and pond conditions. Repeat applications as desired. Rates will be affected by water color and turbidity. Retain usage rate records for future application reference.

Water may be used for irrigation, aquaculture and recreational purposes including swimming and fishing once the dye has dispersed. Treated water is safe for fish and wildlife. Will not stain or harm waterfowl, fish or livestock. Do not apply to water intended for human consumption. Do not apply to streams, rivers, ponds etc. that are not under control of the user.

PRECAUTIONARY STATEMENT:

Avoid contact with skin, eyes and clothing. In case of contact immediately flush eyes and skin with plenty of water. Get medical attention if irritation persists. If swallowed call a poison control center or doctor immediately for treatment advice.

STORAGE AND DISPOSAL

Store in original container in a cool dry place. Ensure proper lid seal after each use. Protect from freezing. Store in low humidity. Triple rinse container then offer for recycling or dispose in a sanitary landfill or by other procedures approved by state and local authorities.
