Information concerning the raw materials composing the product in this container can be obtained by writing to Lawn and Garden Products, Inc. and referring to the product name.

GENERAL INFORMATION

Monterey Manni-Plex Cal-Mag is designed for the prevention and correction of calcium and magnesium deficiencies when used as part of a balanced fertilizer program. Apply during early growth for stronger plants.

RATE RECOMMENDATIONS

Row, Vegetable, Fruit, Tree, Vines and Greenhouse Crops: Apply 2-4 teaspoons per gallon of water per application throughout the growing season. At least 3 applications are recommended.

Ornamental Crops: Apply 2-4 teaspoons per gallon of water. Cover foliage thoroughly to point of runoff.

Turf/Lawns: Apply rates below in a minimum of 1 gallon of water per 1,000 sq. ft. to actively growing turf/lawns. For best results apply early morning or late evening.

Turf/Lawns: 2-5 fl. oz. per 1,000 sq. ft.

Overseeding: 2 fl. oz. per 1,000 sq. ft. after germination.

Sod Installation: 2 fl. oz. per 1,000 sq. ft. at installation.

Optimum rate of application will vary depending on soil properties (such as pH, organic matter content, texture), weather conditions, time of year, general crop health and crop species. For best results, follow soil test or plant analysis recommendation.

Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden.

MIXING AND HANDLING INSTRUCTIONS:

Monterey Cal-Mag may also be applied via drip or sprinkler fertigation.

Put 1/3 to 2/3 of total required water volume in sprayer. Add adjuvants, fertilizers and pesticides if desired and agitate until thoroughly mixed. Add recommended amount of this product and agitate until thoroughly mixed. Fill tank with remainder of water.

Check chemical mixture compatibility using a jar test prior to application. Be cautious when mixing with phosphate solutions.

California Proposition 65:

 **WARNING: Cancer and Reproductive Harm –**
