Take off contaminated clothing and wash before reuse. **Storage:** Store away from incompatible materials. **Disposal:** Dispose of waste and residues in accordance with local authority requirements.

Application Rates and Use Directions: -

Unless advised by consultant, do not apply during bloom stage. Recommendations listed are only general. Plant species and varieties may have wide variations in their sensitivity or requirement to foliar/soil applications of certain nutrients. Optimum rate of application and frequency will vary between fields, depending on crop, soil pH, organic matter content, etc. Test application (test plot) to assess the potential for undesirable effects under specific conditions is essential.

For best results, apply as a foliar spray early in the morning or late evening. Do not apply during hot, dry weather, or in periods of drought or when plants are under stress.

Add water first to tank or sprayer before adding product!

Foliar Application for Fruit, Nut, Vine, Vegetable, Ornamental and Greenhouse Grown Crops: Apply ½ to 1 tsp. per gallon of water. Spray to wet foliage. Apply as necessary or desired.

ATTENTION: This product may stain. Keep off unwanted areas such as, sidewalks, patios, driveways, fences, painted areas. As a precaution: Spray off unwanted areas with only water after applying.

Monterey Seaweed Plus is compatible with most fertilizers, herbicides and pesticides available on the market today; however, a jar test is recommended for compatibility before mixing chemicals in your tank.

California
