SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Chemical Product
LIQUI-COP®
EPA Reg. No. 54705-7
Common Name: Liquid fungicide.
Chemical Description: Copper diammonia diacetate complex.
TSCA/CAS No.: This primary CAS number is 13822-80-5

Manufactured For
Lawn & Garden Products, Inc.
P. O. Box 35000
Fresno, CA 93745-5000

Emergency Phone Numbers
Emergency Telephone: DAYS: (559) 499-2100
CHEMTREC (24-Hour Emergency Number): (800) 424-9300
EPA National Response Center: (800) 424-8802

SECTION 2. HAZARDS IDENTIFICATION

Classification in accordance with 29 CFR 1910.1200
Skin Irritant, Category 2
Eye Irritant, Category 2
Skin Sensitizer, Category 1

GHS LABEL ELEMENTS
Symbol(s)

Signal Word
WARNING!

Hazard Statement(s)
Causes eye irritation
Causes skin irritation
May cause an allergic skin reaction

Precautionary Statement(s)
Prevention
Avoid breathing fume/gas/mist/vapors/spray. Wear protective gloves/protective clothing/eye protection/face protection. Wash hands thoroughly after handling. Do not eat, drink, or smoke when using this product.

Response
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present, and continue rinsing. If eye irritation persists, get medical advice/attention. IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash it before re-use. If skin irritation or rash occurs, get medical advice/attention. Contaminated clothing should not be allowed out of the workplace.

Disposal
Dispose of contents/containers in accordance with applicable federal, state and local regulations.

Component Related Regulatory Information
This product may be regulated, have exposure limits or other information identified as the following: Copper compounds, n.o.s.

Component Information/Information on Non-Hazardous Components
This product is considered hazardous under 29 CFR 1910.1200 (Hazard Communication). This product is considered hazardous under the criteria specified in the Canadian Workplace Hazardous Materials Information System (WHMIS).

SECTION 4. FIRST AID MEASURES

Eye Contact:
Immediately flush eyes with water for at least 15 minutes, while holding eyelids open. If eye irritation persists, get medical advice/attention.

Skin Contact:
For skin contact, wash immediately with soap and water. In case of contact, immediately remove contaminated clothing and flush skin with copious amounts of water. If irritation persists get medical attention.

Ingestion:
If material is ingested, immediately contact a physician or poison control center. Give one to two glasses of water or milk. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to a victim who is unconscious or is having convulsions.

Inhalation:
If inhaled, immediately remove the affected person to fresh air. If the affected person is not breathing, apply artificial respiration. If irritation persists get medical attention.

Note to Physician:
Provide general supportive measures and treat symptomatically.

SECTION 5. FIRE FIGHTING MEASURES

General Fire Hazards
This product is an aqueous mixture, which will not burn.

Hazardous Combustion Products
Oxides of carbon, oxides of nitrogen and other organic substances may be formed. Copper oxides and copper metal. Ammonia.

Extinguishing Media
Use media appropriate to surrounding fire.

Unsuitable Extinguishing Media
None known.

Specific Hazards Arising From the Chemical
None known.

Fire Fighting Equipment/Instructions
Firefighters should wear full protective clothing including self-contained breathing apparatus and impervious clothing.

NFPA Ratings: Health: 2  Fire: 0  Reactivity: 0
Hazard Scale: 0 = Minimal  1 = Slight  2 = Moderate  3 = Serious  4 = Severe

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions
Wear appropriate protective equipment and clothing during clean-up. Isolate area. Keep unnecessary personnel away.

Methods and Materials for Containment Clean-up
Stop the flow of material, if this is without risk. Contain the discharged material and dike the spilled material where possible. Prevent entry into sewers, drains, underground or confined spaces, water intakes and waterways. Absorb spill with inert material such as: lime, polypads, or other suitable absorbent material. Shovel the absorbed material into appropriate container for disposal. Follow all Local, State, Federal and Provincial regulations for disposal.

SECTION 7. HANDLING AND STORAGE

Precautions for Safe Handling
Open container carefully, as needed to relieve any build up of pressure. Do not get this material in your eyes, on your skin, or on your clothing. Do not inhale vapors or mists of this product. Use this product with adequate ventilation. Wash thoroughly after handling.
Conditions for Safe Storage
Store in a cool, dry area. Do not freeze. Store away from direct sunlight and any sources of heat. Empty product containers may contain product residue. Do not reuse empty containers. Do not store this material in open or unlabeled containers.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Component Exposure Limits
Copper Ammonium Complex (23087-46-9)
NIOSH: 1 MG/M3 twa (as Cu, except Copper fume) (related to Copper compounds)

Appropriate Engineering Controls
Provide local and general exhaust ventilation to effectively remove and prevent buildup of any vapors or mists generated from the handling of this product.

PERSONAL PROTECTIVE EQUIPMENT

Eyes/Face Protection
Wear chemical goggles and face shield.

Skin Protection
Wear impervious (neoprene) gloves, impervious apron.

Respiratory Protection
If ventilation is not sufficient to effectively prevent buildup of vapors or mists, appropriate approved NIOSH respiratory protection must be provided. Respirators should be selected by and used under the direction of a trained health and safety professional following requirements found in OSHA's respirator standard (29 CFR 1910.134) and ANSI's standard for respiratory protection (Z88.2-1992). A written respiratory protection program, including provisions for medical certification, training, fit testing, exposure assessments, maintenance, inspection, cleaning, and convenient, sanitary storage must be implemented.

General Protection
Eye wash fountain and emergency showers are recommended. An emergency spill response will necessitate the use of more stringent personal protective equipment.

SECTION 10. CHEMICAL STABILITY AND REACTIVITY INFORMATION

Chemical Stability
This is a stable material.

Conditions to Avoid
Avoid contact with extreme heat and incompatible materials.

Incompatibility
This product is incompatible with flammable and combustible materials, strong reducing agents and finely powdered metals.

Hazardous Decomposition
Upon decomposition, product may yield copper compounds, ammonia, and nitrogen oxides.

Possibility of Hazardous Reactions
Will not occur.
SECTION 11. TOXICOLOGICAL INFORMATION

Acute Toxicity
This product is irritating to the eyes, respiratory system and skin. May cause allergic skin sensitization reactions.

Component Analysis - LD50/LC50
Water (7732-18-5)
Oral LD50 Rat: >90 mL/kg

Epidemiology
No epidemiological data is available for this product.

Information on Likely Routes of Exposure

Eyes Contact
Contact with the eyes can cause moderate irritation. Symptoms may include discomfort or pain and redness.

Skin Contact
This product is irritating to the skin. Depending on the duration of contact, symptoms will include reddening, discomfort, irritation, and possible tissue damage. Prolonged or repeated skin contact may cause skin irritation or allergic skin sensitization reaction.

Ingestion
Ingestion of this product is unlikely. However, ingestion of product may produce gastrointestinal irritation and disturbances.

Inhalation
This product may cause irritation to the respiratory system. Overexposure to processing fumes may cause metal fume fever which is an influenza like illness. Symptoms include headache, metallic taste in the mouth, cough, thirst, throat irritation, shortness of breath, fever, sweating and pain in the limbs. This illness is not permanent and recovery usually occurs within 24-48 hours after onset

Chronic Effect
Liver and kidney disorders and adverse effects on the lungs, may also occur as a result of chronic exposure.

Carcinogenicity
No carcinogenicity data available for this product. None of this product's components are listed by ACGIH, IARC, OSHA, NIOSH, or NTP.

Mutagenicity
No data available for this product.

Teratogenicity
No data available for this product.

Neurological Effects
No data available for this product.

Other Toxicological Information
No additional information available.

Medical Conditions Aggravated by Exposure
Pre-existing skin and eye conditions.

HMIS Ratings: Health: 2  Fire: 0  Physical Hazard: 0  Pers. Prot.: Safety glasses, impervious gloves, protective clothing
Hazard Scale: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = Severe  * = Chronic hazard

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity
In high concentrations, this product may be harmful to both terrestrial and aquatic plant or animal life.

Component Analysis - Ecotoxicity - Aquatic Toxicity
No ecotoxicity data are available for this product's components.

Environmental Fate
No data available for this product.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal Instructions
Dispose of waste material according to Local, State, Federal, and Provincial Environmental Regulations.
See Section 7 for Handling Procedures. See Section 8 for Personal Protective Equipment recommendations.
Wastes must be tested using methods described in 40 CFR Part 261 to determine if it meets applicable definitions of hazardous wastes.

Component Waste Numbers
No EPA Waste Numbers are applicable for this product’s components.

SECTION 14. TRANSPORTATION INFORMATION

US DOT Information
Shipping Name: This product is not regulated as a hazardous material for transportation.

Canada Transportation of Dangerous Goods Information
Shipping Name: This product is not regulated as a hazardous material for transportation.

IMDG Information
Shipping Name: This product is not regulated as a hazardous material for transportation.

Other Shipping Description: Insecticides or Fungicides, Liquid.
NMFC Item 102120, LTL Class 60

SECTION 15. REGULATORY INFORMATION

US Federal Regulations
No additional information available. All components are on the U.S. EPA TSCA Inventory List.

Component Analysis
This material contains one or more of the following chemicals required to be identified under SARA Section 302 (40 CFR 355 Appendix A), SARA Section 313 (40 CFR 372.65) and/or CERCLA (40 CFR 302.4):

Copper diammonia diacetate complex [Bis-(acetate-O) Diaminecopper] (13822-80-5)
SARA 313: 1.0% de minimis concentration (does not include copper phthalocyanine compounds substituted only with hydrogen and/or bromine and/or chlorine, Chemical Category N100) (related to Copper Compounds)
SARA 311/312: Acute Health Yes: Chronic Health Yes: Fire No: Pressure No: Reactive No

State Regulations
Other state regulations may apply. Check individual state requirements.

Component Analysis - State
The following components appear on one or more of the following state hazardous substances lists:

<table>
